

```
def show
```

```
  b = Blog.find(1)
```

```
  b.reload
```

```
  b.reload
```

```
  render 'show'
```

```
end
```

b.reload is a dead store query.
Fix: delete b.reload

```
def show
```

```
  b = Blog.find(1)
```

```
  b.reload
```

```
  render 'show'
```

```
end
```
