```ruby
shipment.rb:
  has_many :shipping_rates
+  has_one :selected_shipping_rate, ->
+          {where(selected:true).order(:cost) },
+          class_name: Spree::ShippingRate
-  def selected_shipping_rate
-      shipping_rates.where(selected: true).first
-  end

_order_details.html.erb:
- shipments.each do |sm|
+ shipments.includes(:selected_shipping_rate).each do |sm|
    render sm.selected_shipping_rate
  end
```
